

CAMPBELL-SAVONA CENTRAL SCHOOL

Technology Acceptable Use Plan

Overview

The primary purpose of instructional technology resources at Campbell-Savona is to improve/enhance learning and teaching. We believe, however, that the use of this technology within the Campbell Savona Central School District is a privilege, not a right, and that certain guidelines must be adhered to. It is expected that members of the Campbell-Savona school community will use these resources responsibly and for educational purposes that align with the vision, mission and beliefs of the school district.

Scope

These guidelines apply to all members of the Campbell-Savona community – students, faculty, administrators, staff, alumni, parents, volunteers, coaches, visitors and others – who access the Campbell-Savona network using school owned, or personally owned equipment, including wireless devices.

Guidelines

A. Educational Purpose

1. Internet access has been established for educational purposes only, which include classroom activities, career development, and educational research projects consistent with Campbell Savona Central School District policy.
2. Use of the District network is not intended for commercial purposes. Students may not offer, provide or purchase products or services through the Internet.
3. The district will supply staff and student email services meant for academic use. Staff members and Students will be provided a Microsoft Office365 Account, with includes email and access to the entire suite of Office Products. Students accept that this is a non-private email system and mandatory monitoring of the system is to be expected. To keep within compliance of the Children Internet Protection Act (CIPA) this is a content filtered system and students agree to the terms and conditions of the district's board approved Internet filtering policies when they log on to any district owned device.
4. District technology devices that are issued to staff and students are to be used primarily for instructional and academic use.

B. District Network Access

1. All students and employees will have access to Internet resources wherever available. Students in grades K-12 using the Internet will be under adult supervision while in district. District issued student devices taken off campus will be monitored via Lightspeed, our content filtering solution.
2. Access to digital technology resources via the CSCSD network is not a right but a privilege and unacceptable usage will result in a revocation of this privilege.

3. Students and employees will have access to the district network services remotely, currently through the use of GST BOCES WebVPN. The following is understood:
 - a. When accessing the district network remotely, all acceptable use and content filtering policies apply.
 - b. The district is not responsible for content on personal or non-district issued devices.
 - c. The district is not responsible for maintaining any personal or non-district issued devices.
4. CSCSD reserves the right to limit or restrict user access to the network in its efforts to maximize network use for academic purposes or as a result of violation of the guidelines.

C. Unacceptable Uses

1. E-mail and the Internet

- a. Students will not post personal contact information about themselves or other people. (Personal contact information includes information regarding home addresses, telephone number, school address, work address, etc.)
- b. Students will not agree to meet with someone they have met on-line.
- c. Students will promptly disclose to their teacher or other school employees any message they receive that is inappropriate.
- d. Social Media, Chatrooms and bulletin boards will only be used with the permission of the classroom instructor or within the confines of an online academic environment such as Advanced Academics.
- e. Email accounts for employees and students should be used for school-related purposes.

2. Software

- a. Users **will not** download software from the Internet unless approved by designated district personnel.
- b. Users will not make illegal copies of District software. When software is purchased it is licensed for a particular computer or group of computers. To use software in a manner that is not in compliance with the software license is an infringement of copyright laws.
- c. Users will not load software from thumb drives, CD-ROMs, or external hard drives.

3. Inappropriate Activities

- a. Users will not attempt to gain unauthorized access to any other computer system through the Internet access, or go beyond authorized access. This includes attempting to log through another person's account or access another person's files. These actions are illegal, even if only for the purpose of "browsing".
- b. Users will not make deliberate attempts to disrupt the computer system or destroy data by spreading computer viruses or by any other means. These actions are illegal.

- c. Users will not use the district technology resources to engage in any illegal act, such as arranging for the sale or purchase of illegal drugs which includes alcohol and cigarettes, engaging in criminal gang activity, or threatening the safety of person(s), etc.

4. System Security

- a. Users are responsible for their individual accounts and should take all reasonable precautions to prevent others from being able to use their accounts. Under no conditions should users provide their password to another person.
- b. Users will immediately notify an administrator or teacher if they have identified a possible security problem.
- c. If a student detects a security problem, that student will not identify this problem to anyone other than those specified above.
- d. Any user identified as a security risk may be denied access.
- e. District will provide appropriate web filtering to comply with federal regulations.

5. Inappropriate Language

- a. Users will not use obscene, profane, lewd, vulgar, rude, inflammatory, threatening, or disrespectful language.
- b. Users will not post information that could cause damage or a danger of disruption to the computer network.
- c. Users will not engage in personal attacks, including those that are prejudicial or discriminatory.
- d. Users will not harass another person. Harassment is persistently acting in a manner that distresses or annoys another person. If a student is told by a person to stop sending messages, the student must do so.

6. Respecting Resource Limits

- a. Users will use the system only for educational and career development activities.
- b. Users will not download files to the computer unless approved by a supervising adult.
- c. Users will save online gaming (not sanctioned by a teacher) and non-academic multi-media consumption for home, if permitted by parents or guardians.

7. Plagiarism and Copyright Infringement

- a. Students will not plagiarize works found on the Internet. Plagiarism is taking the ideas or writings of others and presenting them as if they were theirs.
- b. Students will respect the rights of copyright owners. Copyright infringement occurs when someone inappropriately reproduces a work that is protected by a copyright. If a work contains language that specifies appropriate use of that work, students should follow the expressed requirements. If students are unsure whether or not a work can be used, permission should be requested from the copyright owner. If in doubt about copyright status, consult with a teacher or librarian.

8. Access to Inappropriate Material

- a. Users will not use the Internet or any other computer technology to access material that is pornographic or obscene. Users will not access material that advocates illegal acts, violence or discrimination towards other people.
- b. If a user mistakenly accesses inappropriate information, that user should immediately tell a supervisor. This will be documented and will protect the user against a claim that the user has intentionally violated this Policy. However, if a user repeatedly accesses inappropriate information, a review will be done to determine if access was truly accidental.
- c. If there is material that a parent feels is inappropriate for their child to use, the Campbell Savona School District fully expects that the student will follow their parent's instructions in this matter.
- d. If a student receives an inappropriate email from another user, they will notify a supervising staff member or Principal immediately.

D. Users' rights

1. Free Speech

Technology communication is considered a limited forum, similar to the school newspaper, and the Campbell Savona Central School District may restrict users' speech for valid educational reasons.

2. Search and Seizure

- a. Users should expect only limited privacy in the contents of their personal files on the Campbell Savona School District system. Administrators and supervisors will have access to all files on the Campbell-Savona School District's network. This includes student email correspondence through Office365.
- b. Routine maintenance and monitoring of the Campbell Savona School District's network may lead to discovery that a user has violated this Plan. If so, appropriate action will be taken.
- c. An individual search will be conducted if there is reasonable suspicion that a user has violated this Plan or the law.
- d. Parents have the right at any time to request to see the contents of their child's account.
- e. Network storage areas may be treated like school lockers. Network administrators may review files and communications to maintain system integrity and insure that users are using the system responsibly. Users should not expect that files stored on District servers will always be private.

3. Due Process

- a. The Campbell Savona School District will cooperate fully with local, state, and federal officials in any investigation related to any illegal activity conducted through the Internet or the Campbell-Savona School District Network(s).
- b. In the event there is a claim that a student has violated this Plan in the use of computer technology, the student will be provided with notice of the suspected violation and an opportunity to be heard in the manner set forth in the Campbell-Savona Central School District Student Handbook.

- c. Campbell-Savona School District administrators will make the final determination as to what constitutes unacceptable use for all users. Their decision is final.
- d. If the violation also involves a violation of other provisions of the Campbell-Savona School Student Handbook, it will be handled in the manner described in the Campbell Savona School Student Handbook. Additional restrictions may be placed on students' use of their Internet account.

4. Limitation of Liability

The Campbell-Savona Central School District makes no guarantee that the functions or the services provided by or through the Campbell-Savona School District will be error-free or without defect. The Campbell Savona School District will not be responsible for any damage incurred, including but not limited to, loss of data or interruptions of service. The Campbell-Savona School District is not responsible for the accuracy or quality of the information obtained through or stored on the system. The Campbell Savona School District will not be responsible for any financial obligations arising through the unauthorized use of the system. The Campbell Savona School District is not liable for any damage or corruption of data on non-district devices when accessing the network remotely.

5. Personal Responsibility

It is the user's responsibility to use computer technology, both inside and outside of school, in a proper, lawful fashion. Failure to use Campbell-Savona Central School District computer technology resources appropriately may result in any or all of the following depending on the infraction:

- verbal warning
- loss of Internet use
- limited use of computer technology resources
- loss of access to computer technology resources

District Internet and Electronic Mail Staff and Student Permission Form

We are pleased to offer the students and staff of the Campbell-Savona Central School District access to the District computer network for electronic mail and Internet. To gain access to e-mail and the Internet, all students and staff, must electronically sign a digital copy of this form on a yearly basis. All signed copies will be housed in a database for archival purposes.

Access to e-mail and the Internet will enable students and staff to explore thousands of libraries, databases, and bulletin boards while exchanging messages with Internet users throughout the world. Users are hereby warned that some material accessible via the Internet may contain items that are illegal, defamatory, inaccurate or potentially offensive to some people. We believe that access to the Internet for users, in the form of informational resources and opportunities for collaboration, exceed any disadvantages. Our intent is to make Internet access available to further educational goals and objectives.

District Internet and Email Rules

Students and staff members are responsible for good ethical behavior on school computer networks. Communications on the network are often public in nature. General school rules for behavior and communication apply.

The network is provided for students and staff to conduct research and communicate with others. Access to network services is given to students and staff who agree to act in a considerate and responsible manner. Access is a privilege not a right. Access entails responsibility and there should be no expectation of privacy in the use of the District's technology. Parental permission is required for students.

Individual users of the District computer networks are responsible for their behavior and communications while using these networks. It is presumed that users will comply with District standards and will honor the agreements they have signed.

Network storage areas may be treated like school lockers. Network administrators may review files and communications to maintain system integrity and insure that users are using the system responsibly. Users should not expect that files stored on district servers will always be private.

Within reason, freedom of speech and access to information will be honored to District users. Teachers may guide students toward appropriate materials and assist them in the use of the District's computer technology.

As outlined in the Board policy and procedures on acceptable use for computer technology, the following are **not** permitted.

- Sending or displaying offensive messages or pictures
- Using obscene language
- Harassing, insulting or attacking others
- Damaging computers, computer systems or computer networks in any way
- Violating copyright laws
- Using another's password
- Trespassing in another's folders, work or files
- Intentionally wasting limited resources such as paper and print cartridges
- Employing the network for commercial purposes

Violations may result in a loss of access as well as other disciplinary or legal action.
